Re: Notice of Trespass

Ladies and Gentlemen:

This firm represents the City of Socorro, New Mexico.

Given the passage of the Socorro Industrial Corridor Competitive Electric Power Ordinance (S-Corridor Power Ordinance), and given the expiration of the City Ordinance granting Socorro Electric Cooperative, Inc. (SEC) a franchise to construct, acquire, operate and maintain an electric system within the City limits of Socorro (Franchise), please be informed that the City hereby puts SEC on notice that effective no later than January 1, 2020, SEC shall be considered in trespass on that right-of-way located within the City's Industrial corridor (S-Corridor ROW), generally described as that 800 acres of property located on the southwest side of the City, adjacent to the railroad and bisected by U.S. 60.

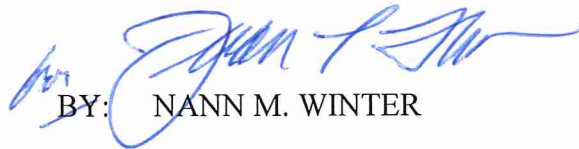

March 13, 2018
Page 2

Please also be informed that commencing Summer 2018, the City will begin the study and survey of such S-Corridor ROW and may make entry on or through such ROW for the purpose of siting and constructing new infrastructure. Upon completion of such studies and surveys, (1) the City will refine this notice of trespass to include the exact ROW impacted, and (2) the City will promptly inform SEC of any SEC facilities that may have to be removed or relocated to accommodate the City's project. In no event will the City provide less than six months' notice of the need to remove or relocate SEC facilities.

Please feel free to direct any questions regarding this notice of trespass to this office.

Sincerely,

STELZNER, WINTER, WARBURTON,
FLORES, SANCHEZ & DAWES, P.A.
